

MSc in Applied Accounting – The only combined Level 9 Masters and CPA Professional Accountancy Qualification in Ireland

This two-year Masters Programme and additional one-year work placement will see accounting trainees earn a Master’s Degree and CPA Accounting Qualification in one.

This graduate programme gives students the opportunity to study advanced modules in accounting which are grounded in theory and applied in practice. A distinctive feature of this programme is that it offers students an opportunity to engage in work based learning simultaneously with their academic studies.

Programme Structure:

Duration	3 Years – (2 Years DIT + 1 year full time work placement)
